

Lisa Scott is the founder and CEO of Intuitive Edge LLC, an alternative legal services company. After years of working as a corporate lawyer, Lisa recognized that she held the blueprint to assist companies with mergers and acquisitions, divestitures, and high volume, complex contract projects in a more cost-effective manner.

Her visionary perspective led to the development of the OASIS Cycle, which has earned Intuitive Edge the opportunity to work with some of the largest corporations in the world. Lisa understands that no single approach is right for every company, so along with her team, she has been able to deliver customized legal services with optimal transparency and efficiency.

Lisa received her bachelor's degree from the University of Michigan, Ann Arbor with a dual major in Anthropology and Chinese Studies. Her law degree comes from California Western School of Law, and she has an active license in California. She also studied abroad at Beijing University and Oxford University and traveled and lived extensively in Asia and Europe. Lisa is an accomplished pianist and is teaching her two children to play.
